

Emma Wright

Frontend Developer

emma.wright@demo-cvs.local · +1 (555) 6095-8013 · London, UK · [linkedin.com/in/emma-wright](#)

Summary

Accomplished Frontend Developer with 10 years of experience architecting scalable production systems. Expert in React, TypeScript, and modern tooling, with a proven track record of driving technical strategy and cross-functional collaboration. Passionate about delivering high-performance, accessible user interfaces that drive measurable business impact.

Experience

Frontend Developer — Pixel Labs (2021 – Present · London, UK)

- Engineered a comprehensive design system using React 19 to standardize UI components and accelerate development velocity.
- Optimized frontend performance, resulting in a 30% improvement in Core Web Vitals through strategic refactoring.
- Authored technical runbooks and architectural decision records to streamline onboarding and maintain system integrity.
- Reduced deployment cycles by implementing automated CI/CD workflows and custom React-based tooling.

UI Engineer — NovaLabs (2018 – 2020 · London, UK)

- Collaborated with product stakeholders to deliver high-impact features using React, ensuring alignment with user requirements.
- Elevated codebase maintainability by establishing rigorous code review standards and expanding automated test coverage.
- Formalized team documentation processes, creating centralized technical guides for complex system modules.
- Increased team efficiency by automating repetitive development tasks and optimizing the React build pipeline.

Web Developer — BrightStack (2014 – 2017 · London, UK)

- Developed and deployed scalable web features in React, contributing to the successful delivery of core product milestones.
- Enhanced software reliability by integrating comprehensive unit and integration testing suites.
- Standardized development practices by documenting technical workflows and troubleshooting procedures for the engineering team.
- Streamlined the development lifecycle by introducing automated scripts that reduced manual overhead in React projects.

Projects

Internal reporting toolkit — Developed a lightweight React-based dashboard and ETL pipeline to visualize and track team performance metrics.

Open-source side project — Maintained an open-source utility library dedicated to advancing reusable React design patterns and component logic.

Education

BSc Computer Science — University of Manchester (2020)

Earned a BSc in Computer Science with a distinction-level capstone project focused on systems and data architecture.

Professional specialization course — Online platform (Coursera / edX) (2021)

Completed a professional specialization course to stay current with industry-standard frontend technologies and best practices.

Skills

React · TypeScript · CSS · Vite · Testing Library · Next.js · Storybook · GraphQL · Jest · Accessibility

Certifications

AWS Cloud Practitioner
