

Jane Doe

Senior Backend Engineer

jane.doe@demo-cvs.local · +1 (555) 0466-1495 · Barcelona, Spain · linkedin.com/in/jane-doe

Summary

Senior Backend Engineer with 6 years of experience architecting scalable production systems. Proven expertise in Python, FastAPI, and AWS, with a focus on driving technical ownership and cross-functional collaboration. Committed to delivering high-impact solutions in the Barcelona tech ecosystem.

Experience

Senior Backend Engineer — TechFlow (2020 – Present · Barcelona, Spain)

- Spearheaded the migration of legacy monoliths to a high-performance Python microservices architecture.
- Engineered robust REST APIs using FastAPI, successfully handling a load of 2M requests per day.
- Standardized engineering practices by authoring comprehensive technical design documents and operational runbooks.
- Optimized CI/CD pipelines and internal workflows using Python, resulting in a significant reduction in feature delivery time.

Backend Developer — DataSoft (2016 – 2020 · Barcelona, Spain)

- Developed and scaled complex ETL pipelines in Python to process large-scale data streams.
- Managed the full lifecycle of Django-based applications, ensuring high availability and performance.
- Established team-wide documentation standards for architectural decisions and incident response protocols.
- Automated repetitive development tasks with custom Python scripts to accelerate deployment cycles.

Software Engineer — NovaLabs (2013 – 2015 · Barcelona, Spain)

- Collaborated closely with product stakeholders to deliver iterative features using Python.
- Enforced rigorous code quality standards through peer reviews and the implementation of automated testing suites.
- Created centralized technical documentation to streamline onboarding and knowledge sharing.
- Implemented Python-based automation tools to improve team productivity and reduce manual overhead.

Projects

Internal reporting toolkit — Developed a lightweight Python-based ETL toolkit and dashboard to visualize team performance metrics.

Open-source side project — Maintained an open-source utility library dedicated to implementing efficient Python design patterns.

Education

MSc Computer Science — Universitat Politècnica de Catalunya (UPC) (2016)

Earned an MSc in Computer Science from Universitat Politècnica de Catalunya (UPC) in 2016, graduating with distinction on a capstone project.

Professional specialization course — Online platform (Coursera / edX) (2017)

Completed a professional specialization course via online platforms in 2017 to advance expertise in modern backend stacks.

Skills

Python · FastAPI · PostgreSQL · AWS · Docker · Django · Redis · pytest · Kafka · gRPC

Certifications

AWS Cloud Practitioner
