

Kevin Zhang

Full Stack Engineer

kevin.zhang@demo-cvs.local · +1 (555) 2500-0357 · Singapore · linkedin.com/in/kevin-zhang

Summary

Full Stack Engineer with 9 years of experience architecting and scaling high-performance production systems. Proven track record of leveraging TypeScript, Next.js, and Node.js to drive technical ownership and measurable business outcomes.

Experience

Full Stack Engineer — AsiaTech (2020 – Present · Singapore)

- Engineered a high-traffic SaaS dashboard using Next.js, improving user engagement metrics by 25%.
- Architected robust PostgreSQL schemas and Prisma ORM layers to support complex data relationships.
- Standardized engineering practices by authoring comprehensive technical runbooks and architectural decision records.
- Accelerated CI/CD pipelines by 40% through the implementation of custom TypeScript automation workflows.

Backend Developer — NovaLabs (2017 – 2019 · Singapore)

- Collaborated with cross-functional product teams to deliver iterative feature releases using TypeScript.
- Enforced rigorous code quality standards by implementing automated testing suites and peer review protocols.
- Maintained system reliability by documenting core backend services and incident response procedures.
- Optimized development velocity by building internal CLI tools that streamlined repetitive deployment tasks.

Junior Web Developer — BrightStack (2013 – 2016 · Singapore)

- Contributed to the full software development lifecycle of web applications using TypeScript and modern frameworks.
- Enhanced application stability by integrating unit and integration testing into the development workflow.
- Collaborated on technical documentation to ensure knowledge sharing across the engineering department.
- Reduced manual overhead by scripting automated build and deployment processes for web services.

Projects

Internal reporting toolkit — Developed a lightweight ETL pipeline and visualization dashboard using TypeScript to track team performance metrics.

Open-source side project — Maintained an open-source utility library focused on advanced TypeScript design patterns and type safety.

Education

BSc Computer Engineering — NUS (2019)

Graduated with a BSc in Computer Engineering from NUS, featuring a distinction-awarded capstone project.

Professional specialization course — Online platform (Coursera / edX) (2020)

Completed professional specialization coursework via online platforms to maintain expertise in the modern web stack.

Skills

TypeScript · Next.js · Node.js · Prisma · AWS · JavaScript · React · MongoDB · GraphQL · PostgreSQL

Certifications

AWS Cloud Practitioner
