

Nina Andersson

iOS Developer

nina.andersson@demo-cvs.local · +1 (555) 0308-4329 · Stockholm, Sweden · linkedin.com/in/nina-andersson

Summary

iOS Developer with 5 years of experience building and scaling high-performance production applications. Expert in leveraging Swift, SwiftUI, and Combine to deliver seamless user experiences while driving technical strategy and cross-functional collaboration.

Experience

iOS Developer — Nordic Apps (2020 – Present · Stockholm, Sweden)

- Successfully deployed 4 consumer-facing applications to the App Store, maintaining high user ratings.
- Spearheaded the architectural migration from UIKit to SwiftUI, modernizing the codebase and improving UI responsiveness.
- Authored comprehensive technical documentation and operational runbooks to streamline onboarding and knowledge sharing.
- Optimized CI/CD pipelines using Swift-based automation, resulting in a significant reduction in build and deployment cycle times.

Mobile Developer — NovaLabs (2017 – 2019 · Stockholm, Sweden)

- Collaborated closely with product managers to define requirements and deliver incremental feature updates using Swift.
- Enforced rigorous code quality standards through peer reviews and the implementation of automated unit testing suites.
- Established standardized technical documentation practices to ensure long-term maintainability of mobile features.
- Engineered custom automation scripts to eliminate manual overhead in the development workflow.

Junior iOS Developer — BrightStack (2013 – 2016 · Stockholm, Sweden)

- Contributed to the end-to-end development lifecycle, delivering iterative improvements to core product features.
- Participated in active code reviews to identify bugs early and promote best practices within the engineering team.
- Maintained internal technical documentation to support team alignment and project continuity.
- Developed internal tooling to automate repetitive tasks, increasing overall team development velocity.

Projects

Internal reporting toolkit — Developed a lightweight ETL and dashboard utility using Swift to visualize and track team performance metrics.

Open-source side project — Maintained an open-source utility library focused on implementing reusable and efficient Swift design patterns.

Education

BSc Computer Science — KTH Royal Institute (2019)

Earned a BSc in Computer Science from KTH Royal Institute in 2019, graduating with distinction on a capstone project.

Professional specialization course — Online platform (Coursera / edX) (2020)

Completed a professional specialization course in 2020 to refine expertise in modern mobile development stacks.

Skills

Swift · SwiftUI · Xcode · Core Data · Combine · UIKit · TestFlight · CI/CD · REST · GraphQL

Certifications

AWS Cloud Practitioner
