Skills

- AWS
- Python
- CloudFormation
- Lambda
- VPC
- CDK
- IAM
- ECS
- S3
- Cost Optimization

Languages

English

Certifications

- AWS Solutions Architect Associate
- AWS Developer Associate

Summary

Cloud Architect with 6 years of experience designing and deploying scalable production systems. Expert in leveraging AWS, Python, and IaC to drive technical ownership and measurable operational efficiency.

Experience

Cloud Architect — Enterprise Cloud (2016 – Present · Chicago, USA)

- Architected a secure, multi-account AWS landing zone to support enterprise-wide scalability.
- Engineered reusable infrastructure modules using Python and AWS CDK to standardize deployment patterns.
- Authored comprehensive technical documentation and operational runbooks to streamline team onboarding.
- Optimized cloud expenditure and accelerated delivery cycles by automating CI/CD workflows.

Cloud Engineer — NovaLabs (2013 – 2015 · Chicago, USA)

- Collaborated with product stakeholders to deliver incremental feature releases on AWS infrastructure.
- Enforced high engineering standards through rigorous code reviews and the implementation of automated testing suites.
- Standardized system maintenance procedures by developing detailed technical runbooks.
- Reduced manual intervention in deployment pipelines by implementing automated AWS provisioning scripts.

Infrastructure Engineer — BrightStack (2009 – 2012 · Chicago, USA)

- Integrated AWS services to support product development and enhance system reliability.
- Refined codebase maintainability by establishing automated testing protocols and peer review processes.
- Formalized infrastructure management practices through the creation of internal technical documentation.
- Streamlined infrastructure provisioning by automating repetitive tasks within the AWS environment.

Projects

Internal reporting toolkit — Developed a lightweight ETL pipeline and dashboard on AWS to visualize team performance metrics.

Open-source side project — Maintained an open-source utility library focused on simplifying common AWS architectural patterns.

Education

BSc Information Technology — University of Illinois (2014)

Earned a BSc in Information Technology with a focus on systems architecture and data management.

Professional specialization course — Online platform (Coursera / edX) (2015)

Completed professional specialization coursework to maintain proficiency in modern cloud technologies.
