Summary

Technical Writer with 4 years of experience specializing in production-grade documentation and developer experience. Expert in docs-as-code workflows, API documentation, and cross-functional collaboration to drive technical clarity. Seeking to leverage expertise in Markdown, Sphinx, and Docusaurus to deliver measurable impact in Amsterdam.

Experience

Senior Technical Writer — DocuTech (2016 – Present · Amsterdam, Netherlands)

- Authored and maintained comprehensive documentation for 200+ REST API endpoints using OpenAPI specifications.
- Designed streamlined developer onboarding guides that reduced time-to-first-call for new engineering hires.
- Standardized internal knowledge management by documenting architectural decisions and operational runbooks in Confluence.
- Optimized documentation delivery pipelines by implementing automated workflows, reducing manual update cycles by 30%.

Content Writer — NovaLabs (2013 – 2015 · Amsterdam, Netherlands)

- Collaborated with product managers to translate complex feature requirements into clear, user-focused technical documentation.
- Enhanced documentation accuracy by integrating peer review cycles and automated validation tests into the content lifecycle.
- Established a centralized repository for technical decisions, improving team alignment and reducing knowledge silos.
- Refined content production workflows, resulting in faster turnaround times for technical release notes and guides.

Documentation Intern — BrightStack (2009 – 2012 · Amsterdam, Netherlands)

- Supported the documentation team in drafting technical content and maintaining internal knowledge bases.
- Assisted in the review of technical specifications to ensure consistency and clarity across product documentation.
- Contributed to the organization of team runbooks, ensuring critical operational procedures were accessible and up-to-date.
- Streamlined documentation formatting processes, contributing to improved efficiency in content publishing.

Projects

Internal reporting toolkit — Developed an internal reporting toolkit utilizing Technical Writing principles to visualize and track team performance metrics.

Open-source side project — Maintained an open-source utility library focused on establishing standardized Technical Writing patterns for developer tools.

Education

BA Communications — University of Amsterdam (2015)

Earned a BA in Communications from the University of Amsterdam in 2015, completing a capstone project with distinction.

Professional specialization course — Online platform (Coursera / edX) (2016)

Completed a professional specialization course via Coursera/edX in 2016 to advance technical documentation skills.
